iris & daylilies

LYON IRIS GARDEN

● 7041 WOODMAN AVENUE
● VAN NUYS, CALIFORNIA
● TELEPHONE STATE 5-6014

IT HAS HAPPENED

IT'S TRUE! After twenty-one years as commercial Iris growers in the San Fernando Valley we're closing out our surplus stock so that we can be more discriminating on a smaller scale and have more time for hybridizing and day dreaming.

OUR PROPERTY HAS BEEN SOLD so a move is imperative. Because of this we are passing on to you unheard of bargains—so take ADVANTAGE OF OUR SALE PRICES. REMEMBER, our sale prices do not lower our usual STANDARDS.

Our descriptions in this catalogue are brief. For further information our regular customers can check for more detailed descriptions of color, form, hybridizing, etc., in our 1959 catalogue. For our new customers we are including with this list our 1959 catalogue.

BECAUSE OF RISING SHIPPING COSTS, it is necessary that we make a MINIMUM charge of seventy-five cents, (.75) for TEN RHIZOMES and an additional charge of ten cents for EACH ADDED rhizome, to help cover postage and packing costs.

TAKE NOTE OF OUR SHIPPING DATES: TALL BEARDED, from June 20th to July 30th; the Beardless Species and Daylilies, August 1st to 5th.

FREE BONUS GIFT on all orders received by June 1st . . . the bigger the order, the better the gift.

1960 Introductions

Tall Bearded Iris

*CARVED JADE (D. Lyon '60) 25.00

A subtle blending of chartreuse-green accentuated on the hafts and edges of the petals. Flower is beautifully formed, with ruffled edges. Smooth and firm in texture. 3-4-way branching on 36" stalks. Blooms from early to mid-season. (This is David's "green-line" breeding.) (Lyon sdlg. #663-51-6: M101-47-2 x Empress Eugenie X M101-47-1: Char-Maize x Green Pastures.)

DANCE OF SPRING (L. Burbridge '60) 25.00

The outstanding beauty of this flower is its exquisite form with the influence of the oncocyclis predominating. Delightfully ruffled edges. Standards are very rounding and beautifully overlapped. Falls are broad, smooth in texture, and of good substance. In color, it is a light creamy yellow with chartreuse influence deepening in the center of fall petals and heart of flower. Beard is yellow, underlined in violet. Height 34". This is an oncobred. Stock limited. (White Ruffles X IB-Mac.)

*DARK ECSTASY (D. Lyon '60) 25.00

Falls are deepest plum with black overlay. Standards wild aster. Smooth satiny texture. Broad petals and heavy in substance. Self colored beard. Good branching on 36" stalks. Blooms over long period from early to late season. (Kol Nidre x Concord Velvet) X Lady Elsie.)

DRIFTING CLOUD (G. W. Coppedge '60) 25.00

A wedding-dress white with satin finish. Beautifully formed. Semi-flared with broad petals of heavy substance. Smooth and heavily ruffled. Evenly branched to give a blooming of four flowers at one time on 30-32" stalks. This is a flower of quality. Plant to the front of flower beds. Awarded H.C. '59 AIS. ((Snow Flurry x Cahokia) X Violet Grace.)

*ENCHANTED EVENING (D. Lyon '60) 30.00

This flower is in shades of darkest plum purples with a black overlay on the fall petals which are velvety in texture, heavy in substance and over 3" wide. Edges ruffled on the entire flower. Exquisitely formed, large in size and well palced on 35" stalks. Blooms from mid-season to late. (Kol Nidre x Concord Velvet) X Lady Elsie.)

* Carved Jade, Dark Ecstasy and Enchanted Evening were winter tested in Nebraska. They came through the 1959 winter wonderfully well.

FROSTY KISSES (G. W. Coppedge '60) 25.00

A pleasing plicata. The ground color is white. It is stitched and sprayed with blue-violet in a clean and clear pattern. Somewhat ruffled, with satin finish and of good substance. Height 34". Mid-season bloom. (Lyon sdlg. #D52-53: Aldura x Patrice X Self.)

MIDNIGHT WALTZ (L. Burbridge '60) 25.00

Deepest huckleberry purple with standards slightly lighter. Beard is self colored. Smooth satin finish on broad fall petals of excellent substance. A flower of beauty. Well branched on 35" stalks. Blooms early-midseason. Awarded H.C. '59 AIS. (Black Hills X Sable Night.)

SWEET MUSIC (G. W. Coppedge) 30.00

Light medium wisteria-blue self. Broad ruffled petals. Has a white-tipped yellow beard. This is a blue Iris that has an appeal all its own and a step forward to truer blues. Well branched, giving several blooms at one time. ((Snow Flurry x Cahokia) X Violet Grace.)

Pacific Coast Native Iris

Douglasiana and Innominata Species

(IN POTS ONLY)

(The darlings of the Iris family).

CHIFFON DANCE (D. Lyon '60) 4.00

This is an Innominata-Douglasiana hybrid with combined characteristics. Flower is amber-yellow, center Chinese yellow signal surrounded by dainty stippling and delicate veining in cyclamen shades. Petals are frilled. Height 10". Blooms early spring.

OJAI (M. R. Walker '60) (#D7-56) 7.00

A saucy flower of pastel mauve, with very broad (1½") fall petals, having a signal of soft buff surrounded by deep violet. It is quite frilled. Flower stalks 15". Blooms from April-June. Awarded H.C. '56 AIS.

VIOLET ELF (M. R. Walker '60) (#D11-56) 5.00

Heavenly tinted in pale violet with sea-lavender stippling at the hafts; a wide yellow signal on the fall petals. 12" stalks. Picturesque in its broad ruffled blooms of refined pattern. Blooms from April-June. Awarded H.C. '57 AIS.

IN MEMORIUM

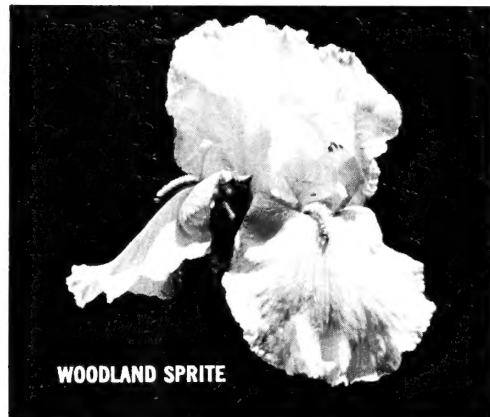

Region 15 has, in the passing of George W. Coppedge, lost an energetic hybridizer, and the Lyon Iris Gardens a staunch friend. Despite an illness that would have downed a less courageous man, he carried on with his Iris hybridizing until near the end. Three of his most outstanding introductions were: *Gay Welcome*, *Woodland Sprite*, and *Magic Halo*.

His wife, Lynwood (Lynn) Coppedge, who has been his assistant and constant companion through his work and illness will continue to carry on with the projects in their garden that he began.

We will miss you, George, but the beauty in your Iris introductions will live on to help those left behind over many a rough road.

For more detailed description of color, form, hybridizing, etc., please refer to our 1959 catalog.

Pacific Coast Hybrid Iris

These are California and Oregon natives and thrive in almost any location in the garden with the average amount of care and watering. However, we advise some sun. Greatly admired in a garden cluster. They are grand plants for the perennial border, and do not require resetting for several years. Do not cultivate around plants as this disturbs the root system.

These little beauties start blooming out here in California about mid-March and bloom intermittently well into June. Plants are evergreen. Ideal as cut flowers for arrangements.

The only time these plants can be divided is in the middle of the winter, while dormant. AVAILABLE IN CANS ONLY. F.O.B. this garden.

SHIPPING DATES AUGUST 1st TO 5th.

Douglasiana and Innominata Species

Per Pot

- \$ 1.25 **AMIGUITA**—Light violet with deep royal purple through center of fall petals. Edges ruffled.
- 1.25 **BLUE SAGE**—A sage blue. Rebranching on stalks from 18"-24".
- 4.00 **CHIFFON DANCE**—See Introductions on page 2.

- 2.00 **PRIDE OF CALIFORNIA**—Oxblood red with center of deep saffron yellow. 8" stalks.
- 1.50 **PACIFIC GLEAM**—In medium tones of yellow with deeper lemon-yellow flush on falls. 14".
- 1.00 **PACIFIC ROSE**—A light brick-red. Falls flushed ruby-red around signal center, which is buttercup yellow. 8".
- 1.25 **PACIFIC STARTLER**—Chinese yellow with oxblood penciling on falls. 10".
- 5.00 **VIOLET ELF**—See Introductions on Page #2.

Louisiana Iris

This beardless variety has a most graceful, carefree air, challenging us to give it a try. Originating in the Louisiana swamps, they adapt themselves beautifully to our garden environment. Where it might be too shady for the other Iris species, plant Louisianas.

CULTURE

In preparing your Iris beds, incorporate a generous amount of compost and well rotted steer, or other organic fertilizer. Louisianas give best performance in enriched soil. Set plants about two feet apart where different varieties are used. Shallow planting is best, (rhizomes just covered.) Keep the ground mulched with leaf mold, compost, or steer fertilizer, and well watered while in the growing stages, especially until they have established themselves, then again in early spring during pre-blooming seasonal growth. Withhold water during 6-8 weeks of summer heat.

SHIPPING DATES AUGUST 1st TO 5th.

Specialty
Priced

- 1.50 **AMETHYST STAR**—A warm rosy-amethyst.
- 1.50 **EVENTIDE**—A lovely blue-lavender. Tall and large.
- 1.00 **FORMOSA**—Glowing wine-red with a gold center.

- 1.00 **PINK CAPRICE**—Delicate pink with tiny golden signal.
- 1.50 **THE KAHN**—Velvety black-violet with large orange signal.
- 1.00 **UPSTART**—Clear carmine red with bright yellow signal.
- 2.00 **WHEELHORSE**—Rose-pink standards, Amaranth-rose falls.

Spuria Iris

The Spurias, sometimes called the "Butterfly Iris," are hardy and easy to grow. They range from three to five feet in height and will grow in almost any location of the garden. They are especially fine for background plantings.

Their blooming season starts about the middle of the Bearded Iris season, thus prolonging iris display in the garden. Too, they are one of the finest for flower arrangements and especially fine for corsages, resembling orchids.

Once planted, they establish themselves and do not need to be transplanted for several years. Like other rhizomatous iris, they should be given shallow plantings, that is, just cover rhizomes with about 1" of soil. Plant 1½ to 2 feet apart.

For specimen blooms we suggest an application of steer fertilizer around your plants, in early spring, when new growth is starting up. A compost mulch is very fine too. Keep them well watered during their growing season, especially the pre-blooming growth.

In late summer when foliage has dried back somewhat, cut it back, leaving from 6" - 10". This part is readily removed as new growth starts up in early spring.

SHIPPING DATES AUGUST 1st TO 5th.

- \$12.00 **AUTUMN GLOW**—Orange-yellow overlaid with bronze.
- 3.00 **BIG CLOUD**—Large broad petaled white.
- 3.00 **BLACK POINT**—Dark chocolate brown of medium size.

Daylilies

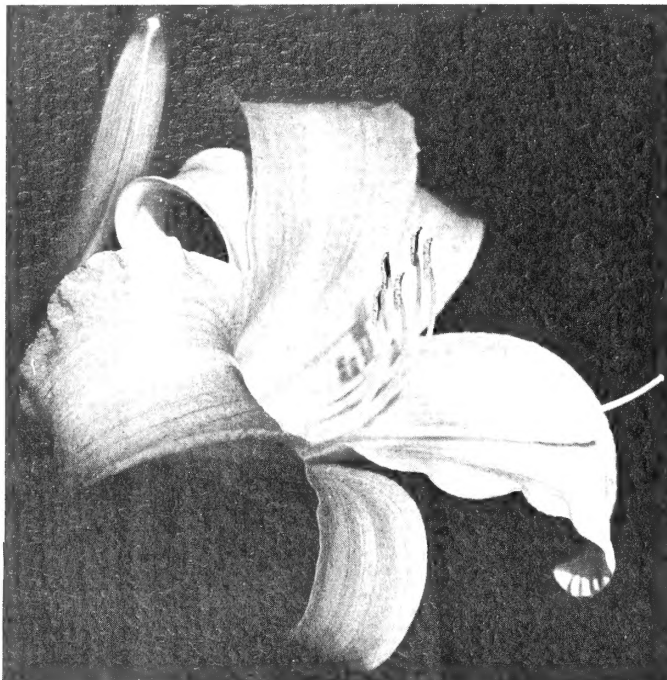

AMERICA'S SUMMER PERENNIAL SUPREME BLOOMING FROM MAY TO OCTOBER

The Hemerocallis, or daylily, is the one perennial that comes close to being all things to all gardeners. They can be grown without fuss or bother, fitting into various conditions of soil, moisture and full sun or partial shade.

These pest-free plants will be a permanent addition to your garden. They need not be divided and transplanted for several years.

They are in full bloom in the middle of the hot summer when flowers are not too plentiful, and many varieties continue through with reblooming periods, clear up until heavy frosts.

SHIPMENTS will be made August 1st to 5th.
